## SUMMARY

---

B.Tech Computer Science Engineering student at Sigma University with a strong interest in web development and full-stack development. Experienced in building responsive web interfaces and interactive projects using HTML, CSS, and JavaScript, with additional experience in Figma, Git, and basic Python. Currently expanding knowledge of MySQL and backend development with the goal of becoming a full-stack web developer.

## EDUCATION

---

### Sigma University

B.Tech in Computer Science Engineering, First-Year CGPA: 8.55 / 10

Expected Graduation: 2029

## EXPERIENCE

---

### Hackathon Participant

AMD Slingshot

- Participated in AMD Slingshot, a beginner-focused hackathon introducing participants to the Antigravity AI agent.
- Built a website using the introduced AI agent as part of the hackathon challenge.
- Gained hands-on experience with AI-assisted development, rapid prototyping, and building a project under time constraints.

## PROJECTS

---

### YumeStream — OTT Movies Platform | Figma, HTML, CSS, JavaScript

- Designed an original OTT movie-streaming platform interface from scratch using Figma.
- Translated the Figma design into a functional web interface using HTML, CSS, and JavaScript.
- Focused on creating a modern, visually appealing layout inspired by contemporary streaming platforms.
- Practiced the complete workflow from UI design → development → implementation.

### Ishu — Text-to-Text Chatbot Assistant | HTML, CSS, JavaScript

- Developed a text-based chatbot assistant named Ishu.
- Created an interactive chat interface for sending and displaying user messages and assistant responses.
- Focused on building a clean conversational UI and improving user interaction through JavaScript.

### Valorant Gaming Website | HTML, CSS, JavaScript

- Created a Valorant-inspired gaming website interface.
- Implemented game-themed layouts, navigation, visual sections, and interactive web elements.
- Practiced responsive design and frontend development while recreating a gaming-focused user experience.

## TECHNICAL SKILLS

---

**Frontend:** HTML, CSS, JavaScript

**Design:** Figma

**Programming:** Basic Python

**Database:** MySQL — Currently Learning

**Tools:** Git, GitHub

**Development:** Responsive Web Design, UI Implementation

## CAREER OBJECTIVE

---

Seeking opportunities as a Web Development / Full-Stack Development Intern where I can apply my frontend skills, strengthen my backend and database knowledge, work on real-world projects, and continuously grow toward becoming a full-stack developer.
